

SEP 90

Illinois Valley Wheelm'n

FROM THE BACK OF THE PACK ...

It's August and the temperature and the humidity have both crept up into the 90's. Summer is truly here. For a while it didn't seem as though it would ever get here. Sorry, folks, July evenings with lows in the 50's just isn't summer in Illinois.

Many of us have been enjoying long distance trips and vacations. A number of IVW members were spotted combatting headwinds and rain on RAGBRAI XVIII. (Maybe not as enjoyable as other years but then again, we could have been at work.) Others made it to Colorado, Minnesota, Wisconsin, and elsewhere. For those of you who like to share your experiences with us, remember we can always use speakers for our meetings. Don't worry about being a polished public speaker--you are among friends.

As announced, Diane's Ride will be on Saturday, September 29. This is not a permanent change of date. We will try to move it back to its original date next year. Thanks to many of you who have already volunteered to help. We can still use more help. Please contact myself, Eric Hutchinson, or Dean Grethey if you can help.

As I write this, the world is becoming a more complicated place in which to live. Halfway around the world the decision of one man has had a far-reaching effect upon us. Within our own membership many of us have sons and daughters, relatives, friends, and neighbors who are directly affected by the Gulf Crisis. Let us hope and pray that a solution to this dilemma is found quickly. In the meantime....ride safe.

PEORIA'S BICYCLING HISTORY

The book BICYCLE FEVER written by Steven Streight has just been published by Ruppman Marketing Services, Inc. in Peoria. This book, complete with rare photos, paints an excellent picture of bicycling in the "Central City" during cycling's early heyday (1800's). In those days, Peoria was a nationally recognized bicycling center complete with 8 cycling clubs, 5 cycle manufacturers, and a 1/2 mile race track (complete with large grandstands) in Lakeview Park. Informative and entertaining, copies are on sale now at Vitesse & Russell's Bike Shops and Junction City Book Store.

Miscellaneous

According to the *Washington Post*, out of the top 15 political action committees (PACs) in 1989, three were from the transportation industries: The Teamsters Voter Education Committee came in third with contributions of \$629,312; the Air Line Pilots Association was 5th with \$547,797; and the United Auto Workers Voluntary Community Action Program contributed \$408,478 to political races in 1989. The United Parcel Service was 24th with \$304,792 of contributions in the off-election year. Ninety percent of PAC funds were donated to incumbents, and these were usually to members of Congressional committees with jurisdictions over the PAC's industry and unions.

Maryland's Montgomery County has imposed a \$120 per employee parking place tax for both paid and private lots to pay for its suburban roads. This "commuter tax" stems from a mobile work force that commutes into the county daily, but doesn't pay property tax, which is the usual source for construction funds.

New "How To" Available

"How to Ride in a Group," a new member of the League's "How to" series, has just been published. Donated by the Bloomington Bicycle Club of Bloomington, Indiana, the brochure offers valuable information relevant for all clubs and cyclists. It is available from the League office for \$2. Call for information on bulk orders. "How to Ride in a Group" joins six other *How Tos*, including "How to Promote Bicycling as a Pollution Solution," "How to Get Police on Bikes," "How to Rate the States," "How to Succeed at Bicycle Advocacy," "How to Repeal a Mandatory Sidewalk Law," and "How to Get Federal and Local Funds for Bicycle Projects," which are also available for \$2 postpaid.
